ABOUT THE LL.M. PROGRAMME

The University offers an LL.M., a two-year degree programme as per UGC guidelines, to the eligible students who are interested in pursuing a post-graduate degree in law. The main objective of this programme is to groom the students to acquire in-depth and exhaustive theoretical and practical knowledge that enables them to hit the target in their respective specialised fields and thereby continue towards their objective of attaining excellence. The extensive programme provides enough flexibility in respect of lecture courses, seminars, and research dissertations, which are aimed at doing research and developing the requisite writing expression in their fields of research. DBRANLU shall be offering the Post-Graduate Course in Law through the Choice-Based Credit System (CBCS).

The CBCS provides an opportunity for the students to choose courses from the prescribed list, comprising core, elective/minor, or skill-based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marking system.

The grading system provides uniformity in the valuation and computation of the Cumulative Grade Point Average (CGPA) based on the student's performance in examinations, which enables the student to move across institutions of higher learning. The uniformity of the evaluation system also enables potential employers to assess the performance of the candidates.

The LL.M. programme is a specialised post-graduate degree in which students will be offered various specialised streams, like Criminal law and Corporate law. It will follow the semester system consisting of a total of four semesters wherein a couple of courses on important subject matters, like comparative constitutional law, law and justice in a globalised world, alternate dispute resolution mechanisms, research methodology, and legal pedagogy, will be offered. For further details, kindly refer to the scheme of study laid down herein below. This course is designed to keep in view the balanced requirements of society as well as the teaching profession with pragmatic professionalism and research-based teaching-learning inputs. The teaching methodology under this programme will be holistic, which includes extensive and intensive classroom teaching with an emphasis on participative practical learning. It will include assignments, symposiums, seminars, field visits, and project work.
